

NETWORK DIAGNOSTIC TRAINING

Have you ever had a problem diagnosing communication problems, U codes, lights on the instrument cluster, or certain features that should work but don't?

Do these sometimes take longer than they should to diagnose?

Join ASA Texas, ASA Houston, CARQUEST, and BG Products for 8 hours of "Network Diagnostic Training" to shorten that time.

Glenn Young will be your instructor.

Saturday, May 21, 2016

8:00 AM - 5:00 PM

BG Training Facility

8703 Fallbrook Drive,

Houston, TX 77064
